Q2 FY2023 performance, Falguni Nayar, Executive Chairperson, MD, and CEO, said:

Our business has delivered sustainable, strong growth, while investing in capabilities for the future. Our online and offline presence in Beauty has delivered strong growth with improving margins. There has been structural improvement in fulfilment costs as we move to regional warehouses. Post covid, our accelerated investments in new store rollouts as well as store upgradation has resulted in improved footfalls and higher same store sales. Consumer demand for premium beauty, personal care and wellness is showing signs of buoyancy as we gear up for a promising H2 FY23.

We're committed to building a unique customer proposition in Fashion; aided by investments in a differentiated product, collaborations with global brands and expansion in the breadth & depth of our owned brand portfolio. Our merchandise partnership with 'Revolve' provides us access to a successful ecosystem that has proven capabilities. Our focus on curation and discovery in Fashion is evident, as new season merchandise accounted for 24% of Nykaa Fashion GMV; international brands are at 13% of western wear category GMV in Q2 FY23. Repeat buyers in Fashion now contribute 66% of Q2 FY23 GMV, giving us confidence in our product proposition. Digital marketing costs for the fashion business are slightly higher than during covid period, resulting in marketing costs sustaining at Q2 FY22 levels.

We are investing in growth engines of the future, particularly SuperStore by Nykaa. The International business which includes the venture we have with the Alliance Group in the GCC, is promising. True to the Nykaa way, each of these efforts is towards building the business model in a sustainable manner.
